Net Zero Commitment

Version:	Review date:	Edited by:	Approved by:	Comments:
1	December 25	J Nathan	A Ali	No changes required
2	December 26			

The De Parys Group is committed to achieving Net Zero greenhouse gas emissions by 2050 across Scope 1, Scope 2 and relevant Scope 3 emissions.

This commitment was formally approved by The De Parys Group partners in December 2024.

To support this commitment, The De Parys Group will:

- Measure and monitor its carbon footprint over time.
- Reduce emissions through efficient use of premises, energy management, and sustainable procurement.
- Work collaboratively with NHS partners, landlords, and suppliers to support the wider NHS Net Zero ambition.
- Embed environmental responsibility into organisational governance, decision-making and service delivery.
- Review progress periodically and update actions as required.

Further details can be found in the Environmental and Sustainability Policy.

Approvals by The De Parys Group partners are stored on a Net Zero Commitment Board Resolution Acknowledgement Sheet.
